

## New Parking, Rotary Paved Temporary ED Entrance to Open

This phase of construction will see rapid changes occurring in several areas of our campus. Here's what you can expect to see happen:

### Rotary to be Paved

(see #1 on map)

Paving will occur on the rotary adjacent to the Main Campus entrance within the next 5-7 days. The Rotary will open in approximately 3 weeks. We will provide additional information on new traffic patterns prior to opening.

### Temporary Ambulance Entrance

(see #2 on map)

A 100-foot ramp will be installed directly to the left of our current Emergency Department (ED) entrance within the next 2 weeks. This will provide temporary access for ambulance arrivals while the new ED building is being constructed.

### Timeline of Events

#### Next 2 Weeks:

- Paving of Rotary (will remain closed)
- Temporary ED entrance to be built

#### Next 3-8 Weeks:

- Opening of temporary ED entrance
- Opening of Rotary for traffic
- Changes to Main Campus traffic pattern

### Patient Parking

If you are visiting the Medical Arts Building or the hospital, please park in lots E, O and the

lot directly in front of the Bond Wellness Center (see map).

### Check the Web Site for Updates

Because parking and driving patterns will change frequently in the coming weeks, please check MCH's web site at: [www.monadnockhospital.org/expansion](http://www.monadnockhospital.org/expansion) for the latest changes to parking and driving patterns.

### Safe Driving Reminder

*Please remain alert and drive slowly and carefully on the hospital grounds.* Dust, debris and changing traffic patterns require careful attention to ensure safety.  
**Thanks for your patience!**
